

CAD-CUTTABLE VENT HOLE

Vent-Hole is a breathability thermal transfer film based on highly flexible polyurethane material. Vent-Hole has excellent ventilation and is good for sportswear or uniforms. Vent-Hole can also apply all kinds of garments without limitation.

- Suitable one color letters, numbers and figures
- Excellent for air circulation through the holes
- Lighter weight on garments than normal PU film
- It is also good for all kinds of garments
- Need more focus in the weeding process
- Cold peel

AVAILABLE TYPES

- Vent Hole(VH-01~VH-16, VHN-01~VHN-06): Normal colors, Neon colors

SPECIFICATION

- Thickness(excluding 100micron PET liner): 80~100mic. (30~50mic. PU, 50mic. Hotmelt)
- Size: 0.5m(19.68") * 50m(54.68yd) per roll
0.5m(19.68") * 25m(27.34yd) per roll
- 3" inner paper core
- G.W (0.5m * 25m per roll): 4.5kg

PACKING

Individual paper box per roll plus pallet packing

- Volume :

0.5m * 50m : 160*160*520mm

0.5m * 25m : 145*145*520mm

TRANSFER CONDITION

- Temperature: 140°C(284°F) ~ 150°C(302°F)
- Pressing time: 8~10 seconds
- Pressure: about 30kg
- Peeling condition: Cold peel

HOW TO USE

1. Cut the image in mirror on hotmelt side
2. Weed the useless parts
3. Heat & pressure applied
4. Remove PET carrier backing film when it is cold

RECOMMENDED FABRICS

100% cotton, 100% polyester
Poly/cotton blends, Acrylic
